

AdditionalService

Gets all aa and their data

PATH PARAMETERS	
hotelId required	string
roomId required	string

Responses

> 200 List of all aa
— 401 User is unauthorized to perform this action

Creates a new aa

PATH PARAMETERS	
roomId required	string <uuid>
hotelId required	string
REQUEST BODY SCHEMA: application/json	
id	string <uuid>
name	string or null
price	number <double>
room	object (Room)
userId required	string
user	object (User)

Responses

> 200 Success
— 201 aa created successfully
— 401 User is unauthorized to perform this action
— 409 aa with specified number already exists
